

Dear Students,

In an ongoing effort to set skilling as a national priority and transform IPEC into a digital talent hub, INDERPRASTHA ENGINEERING COLLEGE in partnership with CISCO, AICTE, and NASSCOM FutureSkills PRIME have launched an internship program to provide 20,000 virtual internships in cybersecurity through Cisco Networking Academy. This unique collaboration between industry and government will help build a skilled talent pool for cybersecurity jobs in the industry. The program is run as part of the digital skilling initiative in partnership with NASSCOM and AICTE by FutureSkills Prime.

Students can also apply for the Virtual Internships at:

<https://internship.aicte-india.org>

Virtual Internship details:

1. As IPEC is an Cisco Networking Academy institution so 2nd & 3rd year engineering students are eligible to participate in the program.
2. Students must complete the following courses: Introduction to Cyber Security, Introduction to Packet Tracer and Cyber Security Essentials by contacting their NetAcad instructor at their institution and completing their courses on netacad.com or via Cyber Security Internships pathway at FutureSkills PRIME.
3. Students will be requested to provide proof of course completion and digital badges should they be approved for the virtual internship program.
4. Those students approved will be invited to attend a Cisco industry session. Students will work under the guidance of their NetAcad instructor to design a secure network for their institution on the Packet Tracer Simulation tool.
5. On completion and submission of their project work, students will be required to undertake a final quiz.
6. Eligible students who have completed all criteria will receive a virtual internship certificate by CISCO/AICTE.

Number of openings: **20000 (All over INDIA).**
